Dave—attached for your reference is an agenda and attachments for Tuesday's CWA 404g Retained Waters Meeting with Ryan Fisher. My apologies for missing the cut-off for the briefing books this afternoon. The purpose of the discussion is to obtain feedback and direction on the areas of EPA-Corps staff level agreement (Attachment 1) and areas where staff have not been able to come to agreement (Attachment 2) on how to approach the retained waters issue in the CWA 404g rulemaking. We alluded to some of these issues at the close of our pre-brief for you in the Options Selection (Part 1) briefing a few weeks ago (and trust you'll recall some relevant discussions in the FACA as well!). EPA and Army staff plan to step through the issues and invite your and Ryan's engagement on them as appropriate. Feel free to reach out to me beforehand if you'd like.

Thanks again,  
John
